

GLOBAL ACCESS

A WORLD AIDS DAY EVENT

The inability to provide medication to people living with HIV / AIDS hinders efforts to address the international epidemic. We have the capability to produce the necessary drugs, so why aren't we delivering? Join us for a compelling discussion combining perspectives from policy, government, and NGO backgrounds.

SPEAKERS:

Richard Elliott, Executive Director of the Canadian HIV / AIDS Legal Network, ***Dr. Anne-Marie Zajdlík***, founder and Director of the Masai Centre for Local, Regional, and Global Health, ***Aria Ilyad Ahmad***, Universities Allied for Essential Medicine.
